WORK EXPERIENCE

Zero1 Solutions PTY LTD

Junior Software Developer   Feb 2021 - March 2024

- Designed and implemented advanced solutions for operational management and database systems, significantly improving efficiency and scalability for a network supporting over 500 retail locations.
- Tested and developed solutions to resolve client issues.
- Collaborated with teams for seamless integration.
- Provided exceptional customer support
- Developed efficient database queries and stored procedures.

Hex Softwares

Web Developer Internship   Dec 2024 - Feb 2025

I've had the opportunity to dive into the fundamentals of web development through hands on projects, I've built 3 key projects to strengthen my skills:

- A Portfolio Website using HTML and CSS, showcasing clean design and responsive layouts.
- A Todo-List App using HTML, CSS and JavaScript focusing on interactivity and user experience.
- A Resume profile using HTML, emphasizing structured content and basic web structuring

Proto Care PTY LTD

Full Stack Developer   March 2025 - Present

- At Proto Care, I'm part of a dynamic team building innovative tech-driven healthcare solutions. Since joining I've expanded my skills in C#, .Net, Blazor, HTML and CSS while contributing across different areas of the company to meet evolving technical and business needs.
- My work involves developing and maintaining web-based platforms that support the company's mission to improve healthcare access and efficiency. This role has strengthened my full stack capabilities and deepened my understanding of scalable, real-world application development in the health tech space.

EDUCATION

Free Code Camp

Certification   Feb 2019 - Jan 2021

- Mastered modern HTML and CSS techniques to create visually appealing and mobile-friendly websites.
- Developed problem-solving skills and proficiency in JavaScript by building algorithms and exploring core data structures.
- Gained expertise in React, Redux, Bootstrap, and other libraries to craft dynamic and interactive user interfaces.
- Learned to present complex data insights effectively using tools like D3.js and Chart.js.
- Built a strong foundation in SQL and database management, learning to structure and query data efficiently.
- Acquired skills in Node.js, Express, and testing frameworks to build secure and scalable server-side applications.

The Coding Ground

                                          Feb 2019 - Jan 2021

- Gained practical, hands-on experience in software development fundamentals.
- Built a strong foundation in programming, problem-solving, and system design.
- Honed skills in writing clean, efficient code and gained deep insights into the core principles of software development.
